HongEr Uncoilers

Model MT Single Sided Motorised Uncoiler

Options available to include manual or hydraulic expansion,
snubber arm, fixed or variable speed drive

HE CE

Model	MT-200	MT-300	MT-400	MT-500	MT-600
Max Coil Width	30-200mm	30-300mm	30-400mm	30-500mm	30-600mm
Max Coil Weight	500kg	800kg	1000kg	1500kg	2000kg
Main Motor	1hp	1hp	1.5hp	1.5hp	2hp
Coil I.D	508mm	508mm	508mm	508mm	508mm
Coil O.D	1200mm	1200mm	1200mm	1200mm	1200mm
Material Thickness	0.3 – 3.2mm				
Mandrel Expansion	Manual or Hydraulic				

Director: S L Raybould

VAT number: GB276 3173 47

Company registration number: 01168392

Model DBMT Double Sided Non-Motorised Uncoiler

Options available to include manual or hydraulic expansion,
snubber arm, fixed or variable speed drive

Model	DBMT-200	DBMT-300	DBMT-400
Max Coil Width	200mm	300mm	400mm
Max Coil Weight	500kg	800kg	1000kg
Coil I.D	450-530mm	450-530mm	450-530mm
Coil O.D	1200mm	1200mm	1200mm
Material Thickness	0.35 – 1.6mm		
Mandrel Expansion	Manual or Hydraulic		

Director: S L Raybould

VAT number: GB276 3173 47

Company registration number: 01168392

Model MT-F Single Sided Heavy Duty Motorised Uncoiler

Options available to include hydraulic expansion, snubber arm, fixed or variable speed drive, photoelectric loop control, pneumatic disc brake, coil car, snubber arm

Model	MT-800F	MT-1000F	MT-1300F	MT-1600F
Max Coil Width	30-800mm	30-1000mm	30-1300mm	30-1600mm
Max Coil Weight	3000kg	5000kg	8000kg	10000kg
Main Motor	1hp	1.5hp	1.5hp	2hp
Coil I.D	508-610mm	508-610mm	508-610mm	508-610mm
Coil O.D	1200mm	1200mm	1400mm	1400mm
Material Thickness	0.3 – 3mm			
Mandrel Expansion	Hydraulic

Model FU Horizontal Pallet Uncoiler

Options available to include inverter variable speed drive,
loading of 4 to 5 coils at once

Model	FU-1000	FU-2000	FU-2500
Max Coil Width	120mm	150mm	150mm
Material thickness	0.1-1mm	0.1-1.2mm	0.1-1.5mm
Max loading weight	1000kg	1500kg	2500kg
Loading height	600mm	600mm	600mm
Decoiling speed	0-24mtr per min	0-24mtr per min	0-24 mtr per min
Motor	0.5hp	1hp	1.5hp

Founded in 2002 in Shenzhen China, HongEr Machine focuses on high quality coil handling and press feeding systems including decoilers, straighteners, feeders and compact coil feeding lines.

HongEr has supplied machines to over 60 countries & regions. Customers include Ford, BMW, Jaguar, Nissan & Toyota to name but a few. The company continues to grow with the corporate culture of "Credit is the Basis, Quality Comes First". HongEr offers the best solutions with strong technical support and after-sales service.

From servo feeders to large-scale coil feeding lines the HongEr technical team offer solutions to all production requirements. The research and development at HongEr allow their machines to easily handle various differing types of materials including high-strength steel.

Design & Service:

- HongEr offers a full technical team with decades of experience guiding newly graduated engineers that are full of passion and enthusiasm

Co-Operation:

- A dedicated design team can customize the machine per customer requirements

Quality:

- ISO9901 and CE Certificates
- Electric components supplied from Japan, France and Germany
- High precision component parts supplied from Germany and Taiwan
- Strict quality control process
